1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claim 16 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claim language in claim 16, lines 5-7, that reads "for selective communication with a hammer of said firearm, said hammer communicating with said firing-pin assembly via a first opening in said slide" is considered to be new matter. Applicant's invention, as originally filed, does not contain 'a hammer'.

3. Claims 1, 4-11, and 17 are allowed.
